

Paragon Radiology, LLC
Mark P. Preston, M.D., J.D.
Founder and President

Dr. Mark Preston is the Founder and President of Paragon Radiology, LLC. Prior to founding Paragon Radiology, Dr. Preston worked for eight years in private practice focusing on Magnetic Resonance Imaging. Dr. Preston is board certified in Diagnostic Radiology and has medical licensure in 43 states and the District of Columbia.

Educational Background:

- Combined six-year B.A. – M.D. program at Boston University
 - B.A. Boston University College of Liberal Arts
 - M.D. Boston University School of Medicine
- Surgical Internship: North Shore University Hospital, Manhasset, New York
- Hofstra University
 - J.D. Hofstra University School of Law
- Radiology Residency: University of Medicine and Dentistry of New Jersey – Robert Wood Johnson Medical Center
- Fellowship: Magnetic Resonance Imaging
 - University of Tennessee – St. Jude Children's Hospital, Memphis, Tennessee

A One-Stop Teleradiology Solution.

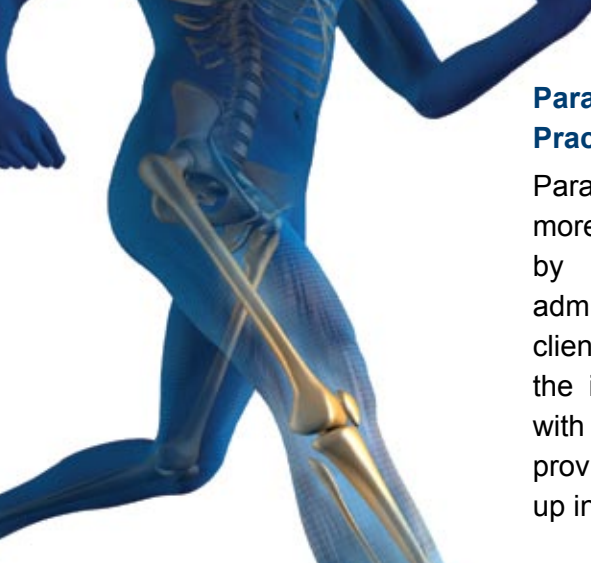

Founded by Dr. Mark Preston in 2003, Paragon Radiology provides comprehensive radiology and management services that give an organization added flexibility while maintaining quality, focusing on patient care, and enhancing efficiency and profitability. Paragon Radiology is committed to providing accurate, concise, and timely teleradiology interpretations and reporting.

Benefits of Teleradiology:

- Access to board-certified radiologists
- Accurate and concise interpretations and reporting
- Complete customization for your imaging needs
- Cost-effective
- Coverage for vacations and periods of understaffing
- Easy addition of radiology interpretation coverage to existing team
- Industry-leading technology
- Rapid implementation of a comprehensive imaging solution
- Secure HIPAA compliant technology

You'll Have Confidence in Our Solution.

Modern technology allows providers of diagnostic imaging cost-effective alternatives to on-site radiologist coverage without sacrificing quality. We deliver our interpretation services through a Health Insurance Portability and Accountability Act (HIPAA) and Digital Imaging and Communications in Medicine (DICOM) compliant communications network, incorporating encrypted broadband Internet connections and an industry leading Picture Archiving Communication System (PACS).

Paragon Radiology Provides Infrastructure and Practice Management Services

Paragon Radiology can help new clients streamline and more effectively manage their own business operations by leveraging the same technology, support and administrative expertise that we provide our existing clients. Because it can be a beneficial endeavor to pursue the implementation of imaging services, we can work with you to procure equipment, arrange for installation, provide staffing, and arrange training for your staff to set up internal production, billing and management systems.

Who is a prime candidate?

Hospitals • Imaging Centers (Independent Diagnostic Testing Facilities or IDTFs)
Multi-Specialty Physician Practices • Single-Specialty Physician Practices (particularly in cardiology, neurology, neurosurgery, oncology, orthopedics and urology)

Reports

- Abdominal Imaging
- Age of injury reports
- Body imaging
- Cardiac Computed Tomography Angiography (Cardiac CTA)
- Cardiovascular Imaging
- Computed Tomography Angiography (CTA) cardiac and peripheral vascular
- Emergency Radiology
- Gastrointestinal
- Genitourinary
- Head and Neck Imaging
- Magnetic Resonance Angiography (MRA)
- Magnetic Resonance Imaging (MR or MRI)
- Mammography (MQSA)
- Musculoskeletal Imaging (shoulder, elbow, wrist, hand, hip, knee, ankle, foot, soft tissue)
- Neuroradiology (brain, head and neck, magnetic resonance angiography, spine)
- Nuclear Medicine
- Oncologic Imaging
- Pediatric Imaging
- Positron Emission Tomography (PET)
- Thoracic Imaging
- Vascular Imaging
- Virtual Colonoscopy
- Women's Imaging

Comprehensive Teleradiology Services

Paragon Radiology provides a one-stop teleradiology solution that is comprehensive, cost-effective and reliable. We can provide stat or routine transcribed reports with immediate results for emergency needs when they arise. We are licensed to provide interpretations in 43 states and the District of Columbia – check our website at www.paragonradiology.com for a complete listing.

Modalities

- Computed Radiography (CR)
- Computed Tomography Angiography (CTA)
- Computed Tomography (CT)
- Digital Radiography (DR)
- Film X-Ray
- Magnetic Resonance Angiography (MRA)
- Magnetic Resonance Imaging (MRI or MR)
- Mammography (MQSA)
- Nuclear Cardiology
- Nuclear Medicine (NM)
- Positron Emission Tomography (PET)
- Positron Emission Tomography/Computed Tomography (PET/CT)
- Ultrasound (US)

Other Professional Services

- Advertising
- Age of injury reports - personal injury, plaintiff and defense, workers' compensation
- Approve and specify equipment
- Billing and collection
- Compliance
- Dictation services (transcription and/or voice recognition)
- Equipment financing, leasing and/or purchasing
- Equipment installation
- Facility management
- Imaging center acquisition
- Information technology (IT) service and support
- Licensure
- Marketing
- Medical billing and coding
- Over-reads
- Picture Archiving Communications System (PACS)
- Pre-certification
- Radiology Information Systems (RIS)
- Second opinions
- Staffing
